VAL

18

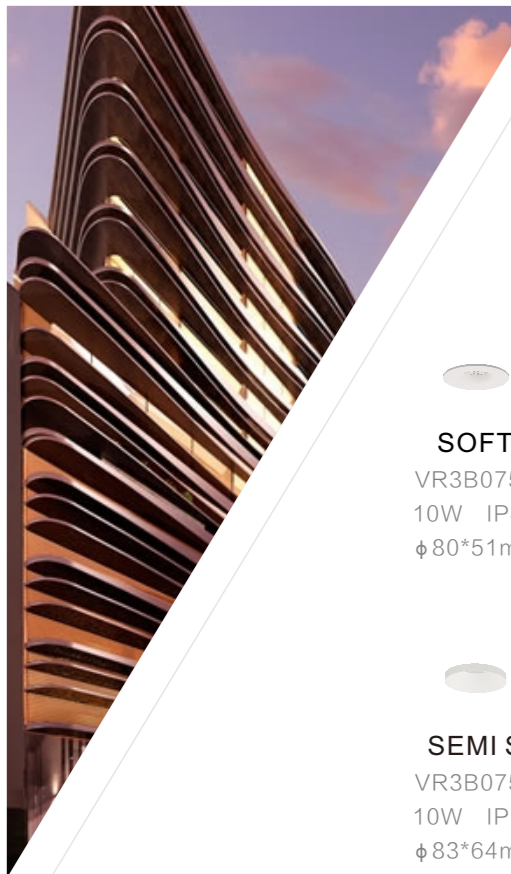

VAL- INTERNATIONAL is inspired by the latest interior design ideas throughout the world. Its focus is on simple design, minimalist looks and modern lighting concepts.

Creating modern products for Retail, Hospitality and Residential applications, we are sure our products will meet the High standards required by our clearly defined consumer base.

Our team of niche international lighting designers from varied Design studio hubs allows us to produce contemporary designs for Architects, interior designers and End users.

Our Head Quarters is based in Australia and our ability to work with other design studios enables us to create collaborative designs that are accepted eagerly by our expanding agency base all over the world.

Carefully selected agents provide professional, trusted and dedicated service to all customers. Their lighting experience will ensure the best possible results when searching for lighting solutions. Specialists in all facets of lighting, our agents will create the best environment for you.
